II. Types of Grants

This year, we anticipate approximately \$2 million will be available for the County Executive's Community Support Grants (this amount is subject to change).

The following types of projects/programs are encouraged:

- **Program/Project Support** that allows non-profit organizations to continue to operate and/or increase the impact of an existing program/project, or to pilot a new program to improve and enrich the lives of Anne Arundel County residents and communities. Costs may include, but are not limited to, program/project specific staff costs, supplies, travel, equipment etc., as well as a percentage of administrative overhead proportional to your program/project's budget relative to your organization's operating budget.

- **Capacity Building Support** to allow non-profit organizations to operate more efficiently and effectively in pursuit of their mission. These are one-time funds to assist non-profits in building organizational efficiencies and sustainability. This can include strategic planning, governance, professional development, technology improvements and systems innovation, among other things. If you would like to request funding for capacity building support, please complete Section I. Requests in this category should describe how the grant will allow them to expand/improve their impact within Anne Arundel County.

Note: Collaborative Projects are preferred but not required for funding.

III. County Executive's Priorities

The County Executive and review team will prioritize FY 2025 Community Support Grant proposals that include support for programming and initiatives in Anne Arundel County that focus on at least one of the following:

- Providing services to underserved populations
- Addressing the health and well-being of communities
- Promoting equity and inclusion
- Eliminating the [Opportunity Gap](#)

A. Funding Cycle

- are non-profit, tax-exempt, as defined under section 501(c)(3) of the United States Internal Revenue Code;
- are in good standing with MD State Department of Assessment & Taxation (SDAT) – instructions for obtaining a printout of your good standing status are attached as Exhibit II;

Please note that grants were not awarded by the County Executive's Office from FY18 to FY20. All funds were awarded by County departments.

E. Grant Review Process

Funding decisions are made based on, but not limited to, the following:

- Relevance to County Executive's priorities
- Demonstrated need for program / project
- Quality of proposed outcome measures
- Completeness and clarity of grant application form
- History of compliance on reporting requirements from previously funded programs/projects
- Organization's stability
- Demonstration of sound financial planning, management, and allocations of funds

Grant applications will be initially screened for basic eligibility and compliance by ACDS staff, then reviewed by a panel of County agency representatives.

The County Agency Panel will make final recommendations for each award and funding amount to the County Executive's Office.

Panel recommendations for grant awards will then be reviewed and final decisions made by the County Executive.

F. Notification of Grant Award

Applicants will be notified of award in writing by July 1, 2024.

Applicants who are selected to receive a Community Support Grant will be required to enter into a grant agreement with Arundel Community Development Services, Inc. (ACDS), the agency under contract to administer the grants on behalf of the County. This grant agreement will define the organization's responsibilities and a payment schedule for the award received. Awardees may be required to attend an information session with ACDS staff. ACDS staff will contact the main contact person included in your application to begin processing the grant

award and ensure the organization has submitted all required grant documents, including an Insurance Certificate naming ACDS as an additional insured and a board resolution or other organization document stating that the grant signatory is authorized to sign grant agreements on behalf of the organization.

*If your organization is awarded funds, do not begin incurring expenses until you have a fully executed written agreement with ACDS. ACDS is not liable for any expenses incurred before the grant agreement is signed by all parties. Additionally, grantees must follow an **ACDS approved procurement process**. Do not procure equipment or construction work you plan to fund with CSG resources prior to your award.*

G. Insurance Requirements

Proof of insurance is due after award notification and prior to the release of funds. Failure to maintain the required insurance coverage during the entire grant period shall be considered a material breach of the Grant Agreement.

All grants, regardless of the award amount, must adhere to the insurance guidelines outlined in Exhibit IV: Insurance Requirements for Awarded Organizations.

H. Grant Requirements

Once funds are awarded, grantees must:

1. Follow ACDS invoicing procedures, including submittal of request for payments on organizational letterhead signed by an authorized representative with supporting back up material (e.g. timesheets, evidence of payment, invoices). Note: grant funds are disbursed on a reimbursement basis.
2. Submit progress reports and a final report once the project/program is complete; and
3. Schedule a monitoring visit with ACDS staff while the program/project is in progress or completed. As part of the monitoring process, the Grantee will be required to share an organization-wide financial statement or an audit conducted by an independent accountant or a financial statement prepared in a manner approved by ACDS staff.

If you would like to see a sample application or have any questions, please contact Elisha Harig-Blaine from ACDS at 410-222-3236 or eharig-blaine@acdsinc.org.

Obtaining a printout of Good Standing Status from the Maryland Department of Assessments and Taxation

Information about business entities can be found at the Maryland State Department of Assessments and Taxation ("SDAT") website by searching for "Certificate of Status". A direct link to the appropriate page is here:

<https://egov.maryland.gov/BusinessExpress/EntitySearch>

From the center of the page, in the "Business Name" search bar, enter the name or a part of the name of the entity. There should be no spaces between words, and you should not include the words "the" or "and". Also, do not include any "tail" such as "Inc." or "LLC". If you only search part of the name, follow the part with "%" for a wildcard search.

It will give you the entity's name, status with the SDAT, and whether the entity is in good standing with SDAT.

A paid SDAT Certificate is not required.

A printout of entity detail from the Maryland Department of Assessments and Taxation webpage indicating the organization's good standing is acceptable.

Please note that if the entity is listed as "forfeited" or not in good standing with SDAT, it cannot enter into a contract with the County until the forfeiture or lack of good standing is resolved.

EXHIBIT V

GUIDELINES ON FUNDING FAITH-BASED ORGANIZATIONS & RELATED ACTIVITIES

Anne Arundel County recognizes the important role faith-based organizations play in providing human services and support to our neighborhoods and communities. Keeping this in mind, grants will not be made for religious purposes but may be made to faith-based organizations to support non-religious programs and projects offered to the broader community.

For grants that support equipment or operating costs for **programs**, the program may be located within a house of worship and/or run by a 501 C 3 organization affiliated with the house of worship, but the program benefits must be available to the wider community, including persons of all faiths and non-believers. Additionally, inherently religious activities, such as worship, religious instruction, or proselytizing, may not be part of a program or the services funded by a grant. Inherently religious activities must be offered separately, in time or location, from the programs, activities, or services supported by County funds.

For grants that support **capital projects**, funds may not be used to pay for capital equipment, construction or renovations for/to structures that serve primarily as a place of worship or where the primary use includes inherently religious activities. Funds may be used, in a proportional amount, to sustain space located within a house of worship that will be made available to the wider community, including persons of all faiths and non-believers, for uses that are not inherently religious, including, religious worship, instruction or recruitment.

Please contact ACDS staff for further guidance or examples.

PROCUREMENT:

GRANT OR LOAN RECIPIENTS

A significant aspect of the Corporation's work includes the award of funds to various County organizations for the purpose of serving local community and resident needs. For the purpose of this chapter, a recipient of these public funds is defined as a private for profit or nonprofit organization which receives a grant or loan for: general operating support; specific program support; construction services; professional consultant services; supplies and other expendable property; real property; equipment; and other services.

In order to ensure a fair and open process for the procurement of goods and services, while at the same time striving to acquire the best quality at the best price, free from the potential for bias and conflict of interest, recipient of public funds must adhere to their own established procurement policies or follow the ACDS Procurement Policies and Procedures to ensure purchases of all goods and services in a cost-effective manner, as well as in compliance with all applicable federal, State, and local government laws and regulations.

Recipients of public funds must establish and maintain effective internal controls to provide reasonable assurance that the recipient is managing the funds in compliance with federal, State and local laws and regulations. Recipients are required to adhere to the following general standards.

1. Costs incurred must be considered necessary and cost effective.
2. Procurement transactions must provide for full and open competition.
3. Written standards of conduct covering conflict of interest must be maintained and provided to ACDS.
4. The recipient must maintain documentation supporting a cost and price analysis, as well as vendor selection.
5. The recipient should select vendors carefully, using vendors who are responsible, and have a proven track record of integrity, compliance with public policy, and successful past performance.
6. Recipients must take steps to use minority or women owned business when possible.
7. The recipient must make procurement documentation available to ACDS when requested.

PROCUREMENT REQUIREMENTS AND CONSIDERATIONS

All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. No officer, director, volunteer or agent of the recipient shall participate in the selection, award, or administration of a bid or contract if a conflict of interest is real or apparent to a reasonable person. All procurement

transactions are to be conducted in a manner that maximizes local opportunities, obtains the highest quality for the lowest cost of purchase.

Some form of cost or price analysis shall be made and documented. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted and market prices, together with discounts. Contracts shall be made only with responsible vendors who possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration shall be given to such matters as qualifications, experience, integrity, record of past performance, financial and technical resources or accessibility to other necessary resources.

TOTAL PURCHASE COST LESS THAN \$2,500

When purchasing equipment, supplies or services for \$2,500 or less, efforts will be made to get the lowest price for the best quality. A formal bid process is not required, and items may be purchased in an informal manner. Supplies may be replenished on a consistent basis using comparative product and pricing selection analysis and a separate procurement does not need to be conducted each time a purchase is made. Documentation of the purchase and price comparisons shall be maintained. Examples of documentation may include written notes that quotes were obtained over the phone, via email, or via online pricing. Subrecipients should document what quality factors were taken into account when comparing prices. For example, when purchasing food, factors such as nutrition and sodium content should be taken into account.

PURCHASE COST GREATER THAN \$2,500 BUT LESS THAN \$25,000

When purchasing equipment, supplies or services greater than \$2,000 but less than \$25,000, contact with an adequate number of vendors in an effort to obtain written estimates from at least two vendors shall be required. Written estimates may include online screenshots of existing online pricing or written responses via email. The recipient must document the process followed, the responses received and the rationale for choosing a certain offeror. If only one response has been received after efforts are made to solicit responses from a number of offerors, written documentation of the efforts made and the rationale for moving forward with the responsive vendor(s) shall be maintained.

PURCHASE COST GREATER THAN \$25,000 BUT LESS THAN \$100,000

Equipment and Supplies

When purchasing equipment or supplies which cost greater than \$25,000, a solicitation that encourages competition and the purchase of the best quality at the best price shall be required. The recipient must prepare a written description of the requirements for the material or product it desires to purchase; all requirements the offerors must fulfill; and all other factors to be used in evaluating bids or proposals that will be provided to prospective bidders. The recipient must solicit written responses from at least three vendors. Positive efforts will be made to utilize minority-owned businesses, women-owned businesses, and locally owned enterprises. If fewer than three vendors respond to the solicitation(s), the efforts made and rationale for moving forward with the responsive vendor(s) will be documented. Purchases may not be divided to circumvent this dollar amount threshold.

Construction Services

For procurement of non-residential construction contractors for projects over \$25,000 but under \$100,000, the recipient may follow procurement procedures which are relatively simple and informal. When these procurement procedures are used, price or rate quotations will be obtained from an adequate number of qualified sources. Responses to the solicitation shall be in the form of a sealed lump sum or unit price proposal. Award of the contract shall be to the responsible responder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price. All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. Positive efforts will be made to utilize minority-owned businesses, women-owned businesses, and locally owned enterprises.

Consultant and Other Services

For procurement of consultants and other services contracts over \$25,000 but under \$100,000, recipients shall solicit the services through a competitive procurement process. A solicitation will be prepared containing a statement of work, details regarding qualification requirements and the selection criteria. The consultant shall be procured in a manner which provides competitive proposal procedures for qualification and cost based procurement whereby competitors' qualifications are evaluated and the contract award is made to the firm considered to be the most advantageous to the recipient, subject to fair and reasonable compensation. Under competitive procurement, geographic preference may be used if adequate competition (i.e., two or more offerors who are responsive and responsible) exists within an area. Positive efforts will be made to utilize minority-owned businesses, women-owned businesses, and locally owned enterprises.

CONSULTANT, CONSTRUCTION AND OTHER SERVICES OVER \$100,000

Recipient to follow all procurement guidelines described above in the *Purchase Cost Greater than \$25,000 but less than \$100,000 section*. In addition, the solicitation must be publicly advertised, at minimum, in a local or regional newspaper or internet posting. In addition, an offeror's list is to be generated for the project from an adequate number of known consultants located in or near Anne Arundel County. Opportunities for contracting in connection with the project shall also be given to local MBEs/WBEs through a notification to local MBE/WBE firms listed in the MDOT Minority Business Enterprise/Disadvantaged Business Enterprise. Offerors shall be provided sufficient time prior to the date set for opening the bids for reviewing the requirements of the project and preparing a proposal.

SOLE SOURCE CONTRACTS

Solicitation from a sole source may only be used if one or more of the following criteria is met: (1) the service or good provided is unique and/or (2) ACDS pre-authorizes it due to an emergency need. The basis for considering and selecting the vendor must be documented.
