

## Comments Received – Marley Creek Park

- Pickleball courts, please.
- A playground or dog park would be the best.
- Competition pool/Aquatics facility
- I do not like the proposed entries where there will be thru traffic through quiet neighborhood. If this area must be changed, please consider only using the end of Hospital Drive.
- I live in the Foxchase Community and bought a house here because it is a quiet closed off neighborhood with a lot of young families. I do not want the neighborhood opened up to thru traffic and increasing the possibility for crime, car congestion, accidents, etc. Any new construction should add value to the area, instead of decreasing home values and disrupting the flow of an established neighborhood.
- ABSOLUTELY NOT. STOP TRYING TO PLAN THIS NEXT TO OUR COMMUNITY. WE'VE SHOT THIS DOWN TWICE AND NO ONE IN FOXCHASE WANTS THIS. WE ARE THANKFUL TO BE LANDLOCKED WHICH KEEPS OUR KIDS SAFELY WITHIN THE NEIGHBORHOOD WITHOUT WORRY OF MULTIPLE EXITS. OUR NEIGHBORHOOD IS QUIET AND WE WANT TO KEEP IT THAT WAY. ROCK CREEK HARBOR ALREADY HAS INFRASTRUCTURE. THE LAST THING HOSPITAL DRIVE NEEDS IS MORE SPEEDING CARS TO HIT OUR KIDS. ITS ASSANINE THE WAY YOU KEEP COMING FOR US.
- Tennis, please! There are no county indoor courts. We definitely need indoor tennis courts.
- No park entrance though fox chase
- I do not support the building og this park or road adjustments either.
- Disc golf
- Would like more affordable indoor tennis courts in the area.
- This area can become the quiet place for nature because nature has fewer places to call home. Like Severn-Danza, this is land locked tree canopy and like Severn-danza invasive vegetation is moving into the woodland. Create a park that reminds us of what the natural lands were before we terraformed the land in our image.
- I am a homeowner near the corner of Hospital Dr. and Foxwell Bend Rd. I am 100% for developing the land into a usable park, but believe that concerns in the neighborhood from those opposed would be best mitigated by having ingress/egress for the park only occur via the current Hospital Dr dead-end, NOT through Mall Rd. I believe a design like concept 1 with entrance/exit occurring via Hospital Dr and only walking trails connecting to Mall Rd would be most well received.
- a park would increase crime and traffic
- We should let natural succession happen in this park. If you must build, take out the basketball courts and half the parking from option 1.
- I think it's important for reducing the traffic in the neighborhood to make the road extension from Hospital Drive. That way, Google Maps won't be telling anyone coming from elsewhere to take Mall Rd, while the people who live here will have a direct access path.
- The two amenities most relevant to me are a dog park and a playground. I'd be excited to see both.
- Do not build this park
- Leave woods and nature as is

- Indoor tennis court. Tennis is an important sport in this area and there are no public indoor facilities.
- Leave undisturbed
- No park at end of Hospital Drive
- No
- Pool
- Nature garden, outdoor sensory play, nature playground is needed in our county.
- The only access to any of the proposals is Hospital Drive and Mall Road.
- Na
- Leave tree
- For 20 plus years, Fox Chase community in Glen Burnie has had the privilege of enjoying safety privacy without having major roads plowing through our community. Crime is at its smallest percentage in this Southgate community opening us up like this to even something is pleasant as amenities of a park puts a big bullseye on our community
- Concept 2 would be the best options for this surrounding community.
- We do not want increased traffic, crime, decreased property value, or more displaced animals in our community.
- We need more indoor and outdoor lit tennis courts!
- none
- Currently there are not enough recreational parks in the Glen Burnie area. The current ones are not always maintained.
- Having a park where the only entrances are through the neighborhood is less than ideal, especially if there is to be any kind of sports fields in the park. The roads in the neighborhood are not equipped to handle that much increased traffic.
- I am opposed to the build of any type of park.
- A.A. Co. really needs indoor tennis courts!!
- Would like a park w walking trails.
- The intersection of Oakwood Road and Hospital Drive is already a problem with traffic. The residents of Fox Chase Community have a problem making a left turn from Oakwood Rd onto Hospital Drive as it is. The traffic on Hospital Drive (from Crain Hwy) making a left onto Oakwood blocks the intersection for cars turning onto Hospital Drive. This proposed park is definitely going to be a nightmare with all of the traffic coming into our community. Please do not put this Park in our Community
- I live in the Foxchase community next to the proposed park. All neighbors I've talked to are excited about the new park. Unfortunately there's a vocal minority who are starting petitions , putting up signs, and putting out misinformation to stop the park. They are planning on stuffing meetings, and if you wish to speak the leaders of this opposition demand that you submit to them what you plan on saying. So please be aware that there is strong support FOR the park.
- none
- When will this start?
- The traffic getting in and out of hospital drive will be horrible. We do not want the increased crime that will come along with the increased visibility into our quiet neighborhood.

- The County should prioritize activities that don't produce a lot of noise, so that the facility can be used to recharge. E.g.: No ATV course or Pickleball. Yes to zip lining or wall climbing or tennis or volleyball.
- It would be nice to provide a home for sports other than soccer and baseball.
- It would be better to have multiple courts of one thing than one or two of many things. For example: a large enough wall climbing, or at least three tennis courts. Otherwise waiting for a turn forever...
- As minimal as possible. There are so many homes to wild life in this area, destroying more of the wooded area will leave them no where else to go.
- Building a new park facility in Fox Chase would be a great amenity for the community. As a longtime resident who grew up in this neighborhood, growing up without parks within walking distance was a major drawback. I spent a lot of my youth at Lake Waterford and Kinder Farm Park, which required a car to access. I strongly support the new park facilities in whatever form they will take.
- I am a retired wildlife biologist USFWS. MCP is an unfragmented riparian forest supporting a variety of native plant & animal species, is important to resident & migratory birds & anchors an existing wildlife corridor. MCP provides improved water quality for the Bay, storm water storage in ephemeral wetlands, green space & wildlife habitat. MCP presently supplements several state & county environmental initiatives & provides ecological benefits at no cost to the county in its current state.
- Please don't greenwash this like Howard County does. I love the natural areas and the last thing we need is more impermeable surfaces to mess with water retention and increase bay pollution
- Leave as natural as possible with hiking trails and playground equipment
- Small skateparks /skate spots are easy to incorporate into parks and add much more value than some may think. This can be as simple as a smooth strip of concrete with one long bench and a ramp. It doesn't have to take up much space or much of the budget.
- Keep somewhat natural
- Anne Arundel needs bigger and better playgrounds, as well as nature centers and trails.
- We need more indoor tennis facilities
- Go cart track/ mini bike track
- My preference would be to leave the area as is as my home backs directly to the area. If it has to be developed a small nature trail, low impact would be my only acceptable option. It should be kept as is as a conservation area. There are bodies of water and abundant wildlife that would be affected by any type of development. there are brand new athletic fields at the Moose facility a few miles up the road. An ATV park is a ridiculous option. Any change ruins my property value. No added traffic!
- I do NOT wish to have a park in my backyard... for the obvious reasons, increased traffic and crime rates.
- More outdoor areas for different types of activities would be appreciated.
- The residents of Fox Chase do not need this park or want it. The communities tot lot is already an open air drug market at night and this park will be the same. If the county wants to build a park, it's my understanding Stewy SHITMAN has plenty of property at his horse farm and winery, build it there. AACO is already known as the Treeless county. Why take even more?
- Everyone in my neighborhood has kids and or dogs and likes to walk.

- The woods and Marley Creek watershed are a home to many species of animals, trees and plants. If torn out for this park, where will these animals go and what damage will be done to the watershed? We should leave as much green space as possible in a part of the county that is growing beyond its capacity and trees are a precious resource. We have Elvaton and Kinder parks near this neighborhood, another big park with sports fields is not needed.
- No park at all
- Speed traps need to be in place for any build
- Any and all upgrades would be welcome - upgrades are always welcomed in a changing world
- Concerned of park location
- I live in the community and have small children. We do not want this park built as it will bring unwanted traffic in our safe and quiet community.
- Beautiful area and I think nature trails, and maybe a small playground would be fine. Traffic should NOT be directed for anyone to access the park by driving through any part of Fox Chase community, Mall Rd should not be used as an access point. A nature sanctuary is a great option for the area animals already have nowhere to go, keep it a nature area that people can enjoy. We cant continue to chop down every square inch of nature available. Biggest issue is entrance don't use Mall Rd. PLEASE!
- Love option 3
- As the headwaters of Marley Creek and heavily treed, native vegetation is thriving. Invasive plants are encroaching along B&A trail.improvements should be limited to end of Hospital Dr. Walking trails approach Marley Creek and educate visitors about old growth forest, understory trees and plants. No dogs permitted. A second entrance could enter from B&A as walk on only. Focus on removing invasives that people and birds carry into this unspoiled average.
- The proximity to the B&A Trail should be leveraged as much as possible. All three concepts only show one connection to the B&A Trail. Trails for recreation are great, but this is also an opportunity to implement viable walking/biking connections for purposes other than recreation. The communities along Hospital Drive and Mall Rd would benefit from more direct walking connections to restaurants (Oscar's Ale House, Carrabas), grocery stores (Sprouts and Aldi), and others (Home Goods, 5 Below, etc)
- I like option 2 but recommend removing 1 of the multipurpose fields and adding 1 sensory garden. keep lots of walking and Bike trails
- Millersville/GB area recently lost fields and playground due to the new old mill ms construction would be nice to have something g SAFE for the community to take their children
- we need lighted tennis courts
- We need indoor tennis courts and indoor basketball courts
- A combination of concept 2 and concept 3 makes the most sense to maximize use of space.
- I'm opposed to any concept that would open the dead end at Mall Road! Hospital Drive is more of a main street and does not involve driving through a community.It would be unimaginable the amount of traffic and potential crime, opening Mall Road would bring. Any accepted concept should only include the opening of the dead end at Hospital Drive. Has the county considered enhancing Southgate park instead? There is already a park I close proximity.
- More Community Garden Plots in the area would be great. Kinder Park Farm has a long wait list and gardening is becoming more popular

- More dedicated pickleball courts are needed in Anne Arundel County. Currently the City of Annapolis had 6 and Riverwood Park has 2. Annapolis Pickleball Club for instance has 1800 members and there are many more pickleball players throughout the county. Pickleball is a sport that can be enjoyed by all ages and genders. More emphasis should be on building the pickleball infrastructure throughout the county. Thank you.
- We are a quiet dead end community. This would literally negatively impact all of us with traffic, crime, wild life spillage, infrastructure wear and tear and multi year construction project.
- We need affordable INDOOR tennis facilities.
- Mountain Biking Trails, Hiking Trails. Makes the land accessible to people but does not push out the flora and fauna living there.
- I'm requesting that this part is constructed in a different neighborhood. The proposed Marley Creek Park area is a quiet residential neighborhood. We in the community would like it to stay that way. NO PARK!
- you will ruin this quiet, quaint neighborhood where everyone except some renters take pride in their property
- Concept 2 with 2 more tennis courts and lights.
- None
- Affordable indoor tennis courts are the greatest need
- Indoor tennis courts
- We need more fields for youth soccer! District 2 is EXTREMELY limited on facilities to accommodate the growth of youth sports in the area.
- Indoor tennis!
- Indoor tennis courts
- Need indoor tennis courts
- Would love to see trails and minimal tree loss. Please don't cut down trees to put in more ball fields. If anything, would love to see street hockey or possibly a skate park since those are not resources we currently have nearby. A playground would also be nice but a passive park with trails would be most preferred.
- If a park is being constructed a small family friendly park with just a playground and walking paths would be best for this location.
- No park needed. Leave land as is
- Concept 3 looks like the best option to me.
- No park wanted at the end of Hospital Drive
- Provide bike repair station adjacent to B&A Trail.
- It would be fabulous to have indoor public tennis courts!
- If a large park is going to be created surveillance cameras need to automatically be proposed in the plans to deter crime within the parks and parking lots. Keeping families who use it safe.
- Na
- The proposed park is right in the middle of a residential area and opening up the dead end of Hospital Drive and Mall Road would allow considerable high traffic in the residential area and open the area for far more criminal activity. The traffic for sports activities would be horrendous. I don't believe the neighborhood has the capacity for high traffic. 4th of July traffic alone would render the neighborhood helpless should there be emergencies.

- The only concern is the hours of operation for the park
- I like concept 2
- Need more affordable indoor tennis courts
- Concept 3 is the best, but I don't understand why it doesn't have a playground and such a large dog park space. Also, baseball fields and sports fields are HIGH in demand and any addition is welcomed.
- We really need more indoor tennis courts in the county that are affordable.
- Pickleball is growing
- None
- Anne Arundel county needs INDOOR, AFFORDABLE tennis courts!
- My highest recommendation is for the inclusion of tennis courts. There are few public courts in the county, especially in the northern part, except high school tennis courts, which have their own restrictions. It would be especially nice to have lighted courts, as there are so few of those in the county as well. When planning for tennis courts and pickleball courts, please make them separate, not for both purposes, which causes conflicts between individuals playing one or the other.
- More equestrian-accessible trails!
- I would be interested in the county building an indoor tennis facility.
- These are forested lands and wetlands. This is a residential neighborhood. No park is needed here. Let it be wooded the way it is. We have destroyed enough land as is. Our neighborhood does not need this park.
- Great place for some extra recreation opportunities!
- I don't think this would be a good place to put a park, there is no room for parking and how would the public access the park?
- Not Applicable
- Plans look great
- Please build baseball field with multiple base length positions
- I prefer concept two. My wife is concerned about park maintenance.
- More turf fields are needed for youth sports.
- Tennis courts much needed.
- All concepts have an access point on Mall Rd. My front door opens directly next to the proposed entry point. The potential speeding through the community and access for unwanted criminal activity is concerning to my neighbors and me. We would like another concept to be considered that only allotted for entrance/exit on Hospital Dr or for Concept 3 to open only on Hospital Dr which would prohibit increased traffic directly through the Fox Chase Single Family Homes. No house entry on Hospital Dr.
- We need decent indoor tennis facility in AA county that is accessible for everyone.
- Disc golf
- Please add trails and a good dog park. We do not have enough dog parks in the Pasadena, Millersville, Severna Park area.
- Leave as is
- Please provide affordable indoor tennis court facilities for public use. Thank you.

- Please don't make this change, the forest is an ecosystem that we need and it would not benefit the neighborhood or its people to create more unnecessary roadways. This would cause a lot of other issues too.
- I am concerned about the disruption of the wildlife and increase of traffic and crime.
- We do NOT want this in our community of Fox Chase!!!!
- All these look great but every park in Anne Arundel County needs to add a skatepark. It is now an Olympic Sport and youth need opportunities to practice. Some children prefer to do individual sports and this would give them an opportunity and still get out an exercise and meet and make friends. There are proven studies that this helps youth in developmental skills.
- Need indoor tennis
- Leave it alone don't need all that traffic in this neighborhood
- Highly desired nature trails and wildlife habitat. Playgrounds, pavillions and dog parks would be extremely utilized.
- Please do not build this park. The traffic in our Foxchase neighborhood will be awful!
- I don't want more traffic in my neighborhood
- The playground needs to be on par with Howard County and PG County playgrounds. AAC parks are significantly lacking in comparison.
- Most preferred is a skatepark
- This area needs more soccer & sports fields. So many amenities in the County are geared toward retired residents. We need to take better care of our kids & give them someplace safe to play. Parents with kids have the least amount of time to answer these surveys. Please keep this in mind. Our kids deserve more open playing areas to play sports. The county schools don't even mow their fields in the summer.
- You will have cars parked up and down near the dead end of hospital Drive to get to the bike path it will affect property value
- Would like indoor and outdoor tennis facilities!
- Please leave out communities alone. Stop the over development. Leave nature a lone. We need the trees and all the habitat it creates for wildlife.
- Don't build anything!!! Leave all green area alone near mall road and hospital dr as is. No one wants the crime that would come it. We don't want the traffic or you decreasing the value of our homes!
- n/a
- Please have a lot of trails and a playground
- We would love some turf fields and baseball fields!
- Do not build a park here. This park will have a negative impact on the Fox Chase community. The park entrance will require additional traffic through our neighborhood which will lead to an increase in traffic on residential streets. Fox Chase already has a problem with people speeding through our residential areas which has not been addressed by the county. Additionally, having a park in a residential area will just lead to more loitering and crime for the Fox Chase community.
- Speed bumps along hospital drive. Additionally fixing the sidewalks to get to the park as the Fox Chase Community already has messed up sidewalks making it unsafe to get around. There's not a quality place for the kids from the apartments and townhouses to play. We used the BGE field

for a dog park until they stopped it. Skate parks aren't popular anymore. Adventure sports sound like a tax payer liability issue. none of the concepts look like enough parking...take the estimate and double it.

- We do not welcome the development of any new parks in our area.
- The county needs more lighted tennis courts. Short winter days combined with the competition with pickleball players for courts make it difficult to find ample resources to play tennis.
- The neighborhood needs more tennis courts, which can be used as Pickle ball courts also.
- I would like to see a walking/biking trail connecting my community (Villaggio Enclave) to Marley Creek Park, so that members of my community can easily take advantage of whatever amenities are included in the park.
- Leave the trees. We are over developing AA county.
- None
- Concept 2 is lovely, and I think adding a water feature along the wooded trail such as a pond, that kids could come and fish, would really make it a gem of the community and county park system.
- As a resident of Fox Chase, the location is extremely close to where I currently live and would prefer it to remain in its current state. However if it must be changed, I would like to see many nature trails, the county's largest playground, and open spaces as there are none of these nearby. As a resident, I'm strongly against some of the proposals that cause noise (ATVs especially) and would request that the only entrance be on Hospital drive with chokers added to the road to control speed.
- We need indoor tennis courts badly, our county tennis association has over 3000 members, which doesn't include all the kids that play, yet tennis only has one indoor option in the county, at the Navy Brigade which requires military personnel on the court. Tennis unlike soccer, football, lacrosse and baseball cannot be played in the rain. We love pickleball as well, but it should be noted that there are now several indoor pickleball facilities provided by the private sector in our county.
- N/A
- We need more affordable indoor tennis courts.
- Would love bathroom facility and playground for tots.
- Indoor tennis and pickleball
- None
- WE DONT WANT THIS AT ALL
- Only one entrance. Hospital drive only
- Marley Creek Park provides a clean water supply for the Bay, storm water storage, mature trees assisting in climate mitigation & a productive wildlife corridor. We have state & Federal programs to save the Bay, improve watershed health, combat climate change & protect plant/animal species. It is irrational to support such initiatives on paper but to degrade beneficial habitat in practice. Keep MCP as it is: an unfragmented riparian forest benefitting human health & welfare.
- Prefer more natural areas without noisy sporting events.
- Again, here is an opportunity to preserve forested area in the northern part of the county, where there is so much development. Nature trails only. A small number of parking places.

- Concept 2 except only 1 drive way from hospital drive, or a singular direction of traffic if both entrances are kept.
- The county needs affordable indoor tennis courts.
- While District 2 doesn't have a regional park it is within close proximity to other parks, namely Kinderfarm. It would be waste of county resources to construct a park from scratch versus develop existing parks. Furthermore the residents of Fox Chase strongly oppose the development of a park that would open dead end streets in their community.
- Please do not put a park at the end of our quiet community. The additional traffic alone will cause problems day and night. please leave the area as is. If an option is to move forward I would prefer concept 3.
- All land does not need development. Please leave as is. This pocket of Glen Burnie is reasonably quiet. Would like it to remain so.
- No park wanted in this 37 year old established community
- It would be opening up a peaceful tucked away community to traffic, noise, crime and disturbance of the environment and wild life that exists in this area. Why is it necessary to tear this up to put in a parking lot!!??
- Pickleball court
- A dog park would be my first priority followed by walking trails and connection to the B & A Trail.
- More free workout areas
- We need more affordable and easily accesible in door facilities in AACO. There is a strong tennis community that has been asking to be heard and acknowledged. Please help support the tennis community and all the benefits, both physically and mentally that it brings to our county!
- n/a
- Disc golf course is the most desirable
- There should not be parking lots behind houses...
- There is a lot of wildlife that will be impacted by any development (amenities).
- A nature trail might be beneficial without any amenities..
- This will bring nothing but traffic to the only peaceful street in our community. This is a horrible idea.
- A few reasons I am against the propossed park are as such.
- #1 Traffic and parking will increase. This will bring a great concern to the safety of the neighborhood.
- #2 The removal of trees and landscaping will greatly mangify the volume of traffic noise from local roads and routes.
- #3 Illegal activity is sure to become a problem.
- Please, more affordable indoor tennis facilities. Please
- Thanks
- More outdoor facilities are appreciated and needed in the area.
- Hi, have some events, activities for all ages, young and old
- This area needs more soccer fields with lights and indoor tennis courts.

- I would like development of nature trails. I do not think you need a parking lot as people can park on Hospital Drive. I do not think you should open up Mall Rd as that would create a lot of through traffic for a quiet neighborhood.
- Please stop bringing more traffic to roads that cannot handle what's currently here.
- No entrance or exit from Mall Rd. I really don't want the increase in traffic in Fox Chase, as people already speed down Mall Rd and pose a risk to my children's safety. Please, please put Park entrance/exit off Hospital Drive only!
- Please put a playground in all concepts.
- If the park is a must, then the Mall road vehicle access should be deleted and avoided all together. This would prevent an increase of traffic passing by the existing community playground that's could cause a safety hazard to children at or near this playground. Access through Hospital Drive should suffice. If a secondary access is required, then recommend adding the approach from the rear of the shopping plaza where LA Fitness is located.
- No more noise over here. AA County has plenty of rec space. Leave the trees alone.
- I would prefer our neighborhood stay as is without a new park
- Mall Drive goes right past houses with small children and pets and has no speed bumps for speed control. All the plans have an entrance on Mall Drive. I recommend all park plans use only vehicle entrances from Hospital Drive for child safety.
- Only one plan has a kids play structure but all of them have dog parks. I recommend prioritizing young children over dogs and including more play structures.
- I recommend putting in multipurpose sports fields instead of single sport fields.
- In need of a large sports complex for turf fields for lacrosse/football and baseball.
- Please consider a dog park.
- Bathroom facilities (non portable) would be great!
- I oppose having a park entrance on Mall Rd. , I believe putting an entrance at the end of Mall Road will dramatically reduce the safety of our quiet community street for our children, pets, wildlife and residents.
- Also opposed to athletic fields.
- My opinion is Concept 3 with an addition of bike skills
- park, skate park , community garden and more nature trails would be the most desirable .
- If the county decides to move forward with improvements to this park, it's imperative that it be done with children and elderly in mind. Minimize the need to drive to the park and guarantee features that encourage people to utilize other forms of transportation, whether that be to skate to the skate park and hockey rink, walk to the garden, or take a bus to visit. Mandate bike parking that is nicer than the car parking and consider adding bike trails (especially mountain biking).
- Increased traffic on Hospital Dr is worrisome.
- A use that is largely passive and highlights the environmental assets of the site, but allows the community to experience them seems like the right compromise.
- I believe this would be good for the immediate neighborhood, as well as nearby ones as well as the housing projects. We have many children, teens, and dog owners in the community who don't have much in the way of options as to safe and/or interesting places for exercise and activity. Folks who aren't in our immediate neighborhood have to walk miles to reach our tiny

kinder play area which doesn't support many children at once, doesn't satisfy teens, and doesn't service pet owners.

- This is a Tier 5 area for biodiversity conservation and a forest interior dwelling species habitat because it is a large patch of relatively undisturbed forest. Why are we proposing to cut down what's left of our county forests in the name of recreation? We have enough facilities. Please focus on making existing facilities nicer. Not new parks with roads, fields, and forest removal.
- I BETTER NOT SMELL ANY POT SMOKE!!!!!!!
- The area needs more walking trails to escape suburban sprawl. Green spaces are needed for people to walk in natural areas. Concept 3 looks really good !
- Need more parks for children in the GB area
- None
- N/a
- Do not put this park here so close to residential community. Crime rates will go up. Traffic and safety issues will be major concern.
- This park is too small for the the parking and services required for athletic fields. It needs more acreage and access. Proposed layouts do not consider security, especially at night, or required maintenance protocols. There is not enough comment space to over all the design deficiencies.
- Waterpark, lazy Susan, concerts, events
- Most important to us would be trails
- Do not tear down those woods and displace the wildlife within them. Conserve the trees
- Do not open up this community. It is a quiet safe neighborhood and opening it up will drastically alter the community
- No dog park. No ATV trails either. No gym or indoor basketball. An ice rink that will support learning to skate, figure skating, and hockey would be a major asset.
- Dog park!,gym, basket ball, tennis
- We do not want the traffic, in our community, that this will bring!
- Accommodations for kids with special needs would be much appreciated
- We need more space for quiet activities, and for activities that can be enjoyed as a family. Yes to tennis, volleyball, bicycling, nature center, climbing wall. No to BMX, ATV course, Pickleball, Baseball.
- A mix of hard surface sports that can be covered in winter and uncovered in summer.
- We are in a climate crisis. We must change our bias toward cutting down forest and building everywhere. Save all forest now! Every deforestation contributes to global warming. Build only in areas that are already developed. I'm sure you can find places that are already built for every amenity mentioned here. People don't need more impervious structures and tree-cuttting in public parks. I have to answer to my Gen Z daughter. If we keep building, what forest will be left in 50 years?
- There is an existing park in the neighborhood that has been repeatedly vandalized and attracts people doing drugs after dark. The end of Hospital Dr. also attracts people after dark (racing cars, having sex, etc.). There are currently homeless people living in the woods along the bike trail. This secluded location could be hard to police and secure after dark. Opening the end of Mall Rd. to vehicles would expose pedestrians to speeding cars (Hospital Dr. would be a safer entrance for vehicles)

- Na
- Na
- Lighted Pickleball Courts for use in the evenings
- There is only one road in and out of this area. I don't think Hospital Dr can handle increased volume a park would bring. The area of this park is residential. Isn't there a piece of land not surrounded by homes to build a park?
- Add indoor or outdoor tennis courts!
- We need to keep the natural habitat intact! Clearing trees in effort to accommodate an open land park will directly impact the wildlife (deer, fox, box turtles, etc.) resident to the immediate area and will cause flooding in neighboring houses. In addition, the road infrastructure within this community will NOT support the additional traffic associated with a public park.
- If there could be ADA compliant facilities, that would be greatly appreciated.
- None
- It would be wonderful to leave it mostly natural, with some dog walk/biking trails. 21
- My strongest recommendation is for the inclusion of indoor public tennis courts. There are no public tennis courts in the county, few public courts in the county, especially in the northern part, except high school tennis courts, which have restrictions. It would also be nice to have lighted courts, as there are so few of those in the county as well. Please plan for separate tennis courts and pickleball courts, not for both purposes, which causes conflicts between players of each sport.
- I really like Concept 2.
- We are losing too much green space in Anne Arundel County!!!
- This area is already suffering from traffic. A new park would only make this worse. There are already several parks in the area within a two minute drive
- DO NOT BUILD ANY PARK HERE; IT DISRUPTS AN EXISTING HOUSING COMMUNITY! NO...TO OPENING UP OUR STREETS & NO TO A PROPOSED HIGH VISIBILITY & HIGH TRAFFIC PARK RIGHT IN OUR COMMUNITY'S COLLECTIVE BACKYARD.
- Pool
- .
- Abundant developed green spaces abound in this area of AACo. The Rec and Parks money could be better spent elsewhere.
- Do not put this park in my neighborhood. Traffic on hospital drive and mall road will be horrible
- And bring unwanted crime to a quiet neighborhood
- And please don't sell my email
- Indoor tennis
- I live in fox chase. I do not want those trees torn down or the wildlife disturbed. Please consider the most minimal development possible.
- STOP the madness of building in this area! It is insane and roads can't accommodate the traffic as it is.
- Junior Tennis and indoor tennis options desperately needed close to Severna Park!
- Prefer leaving the area natural with no development.
- Would be great to have indoor and outdoor volleyball, basketball and tennis clutterb
- Indoor Pickleball courts please

- I do not care for this park as it will most likely lead to excessive traffic through our quiet neighborhood, which could lead to increased vandalism, theft, property, destruction, and even issues with parking for the residence of the neighborhood.
- X
- N/A
- Skatepark
- Bowling center
- Proposal lacks details on the potential disruption and other causal impacts to the existing community & environment.
- Opening up quiet residential area will increase crime. Recommend use of other locations.
- Opening up Hospital Drive will put too much traffic in Fox Chase.
- Trash cans, recycle bins, and dog waste stations
- A community dog park is much needed.
- Disc golf course please. Anne Arundel county parks are behind our neighboring counties regarding the second fastest growing sport in the country, disc golf. Pickleball courts everywhere, disc golf courses nowhere. Fix that please!
- I recommend that the land be left as it is
- we need more indoor tennis courts
- We need to save Forests now! Any of the above facilities can be built in areas where there is already development. Please search for the abandoned, malls, etc..
- I have grandchildren and know that all ages need places for sports, etc. But, they also need Nature which is quickly disappearing.
- Kinari Webb says in "Guardians of the Trees":
- "deforestation releases, as much carbon is the entire transportation center for the whole world."
- Heed her warning!
- The things our household would utilize most in the county are disc golf course, pickle ball and tennis courts, hiking trails, turf playing fields for sports, and baseball/softball fields.
- Indoor tennis court to take the kids in the winter
- Mainly want to see playgrounds, Pickleball courts, and nature trails
- Add community garden plots. The waiting list for gardens in Kinder is over 3 years.
- I chose to live in this neighborhood because it's quiet and tucked away. Opening up the neighborhood to the traffic that would come with these parks would not only pose threats to the wildlife that share this area with us, it would also diminish our communities quality of life and safety. We do not want this park here.
- Leave the woods and creek the way they are i.e. do not build a park.
- No park at the end of Hospital Drive
- none
- leave well enough alone, improve other areas that are already established parks in the area. STOP tearing down more trees especially in North AA County.
- Leave this acreage as is!
- There's no need to increase traffic to an area already over burden with traffic and congestion!
- NO THANKS KEEP YOUR PARK!

- I would prefer to leave the site as is.
- No need to clear cut trees and wildlife habitats for another ball field. Let our wildlife have some sanctuary .
- If you must develop use Bacon Ridge as your example
- Any development is going to lower our property value due to the increase in crime that this will inevitably bring.
- We desperately need affordable indoor tennis court facilities within AAC. Please make this happen!
- Disc golf course!!
- A large playground with natural elements like boulders to climb and jump off of
- This park should absolutely be developed! As of now it is a huge unused space, and everyone that lives near it or has been near it knows that the property is being abused and is totally unsafe, and it is currently too hard for law enforcement to access it. Clean it up, make it beautiful and give it purpose! Concept 2 is definitely the best, with the large dog park and multiple entrances to help with traffic and emergency response.
- Other sites are more useable, convenient and not within a residential community.
- Do not build anything near Foxchase Community. We don't want the traffic or more crime brought to our peaceful neighborhood.
- This area is so nice to walk in already, please just put in some nice trails to walk on and maybe a sensory garden and do not add any fields. With the dog park, this is a great place to walk dogs too!
- Placing a park in the middle of a residential community with entrances throughout the community increases the risk of crime and deters future homeowners.
- We need more tennis courts. There are no public indoor tennis courts in AA county. Even just more outdoor tennis courts would be helpful. Pickleball is taking over the available tennis courts. These need to be tennis only courts
- An you tell residents who live in the area how this will affect the value of their home and taxes.
- Do NOT build here. This is a nice quiet community surrounded by horrific crime. Build parks here and the crime will spread to this area as well. I thought AAco was all about preserving wildlife? So why would you want to bring more people and disturbances to this one little beautiful piece of land left.
- We need a field house for basketball tournaments so we don't have to travel to Montgomery Co
- There are already a couple of communities within millersville that have a dog park. I prefer a more active park without dog but that also has a playground for kids like the one in harmans. So concept 2 would be my preference without the dogparl and replace it by adding a larger playground set. Then it truly becomes a family oriented park
- Do not take down more wooded areas in Anne Arundel County for a new park! Fix the existing ones! This is horrible for wildlife and traffic. It's a disaster for climate change. AA County needs to start listening to citizens and start looking out for the environment. This is all about greed of developers and politicians. If you really care, fix/enhance existing parks and stop the deforestation. People in these communities do not want more trees cut down for new development. it's not necessary.
- We do not have dog parks near us so I think having one in the area would be appreciated by many people.

- I live in the neighborhood attached to this proposed site and believe that a nature park is the best option for the surrounding area.
- Please make playground an accessible one for children/adults with special needs. Also, a sensory area would be fantastic.
- Please leave this area alone. Our community of Fox Chase purchased our homes because of the seclusion our neighborhood currently has. We do not want to open this up to visitors, traffic, crime, pollution, environmental impact, construction, littering, etc.
- None
- We need more tennis courts. The more courts, the better. We have been asking for many, many years.
- We don't want any of this. Just a quiet community
- Where are the tennis courts?! We need them desperately.
- Stop trying to add street hockey to everything not enough interest
- The zoning board already denied a rezoning from R1 to R2 several years ago due to increased traffic poor facilities and several other factors. This proposal would put the park too close to existing homes. There is also near Marley Creek which is a protected wetland. There are many other areas that are more suitable options.
- We don't need our woods destroyed and our community as well.
- This area is pretty much quiet and want it to stay that way.
- Our family are residents of the Fox Chase community and do not welcome any of the proposed concepts. Our area is great the way it is.
- As residents of Fox Chase, the original neighborhood, my husband I are proponents of a low-footprint park development, consisting mostly of open space. This is contrary to a petition circulating in my neighborhood which will be presented Nov. 13. We would welcome a park near our home.
- Perfect park = large dog park, disc golf course and pickleball courts.
- request community swimming pool with yearly charge to join
- The fact there isn't a basketball court to be found in all of central Glen Burnie is ridiculous.
- Walking trails!!
- I back up on the area and it is very densely populated with wildlife Deer, fox, raccoon, possum, squirrel. Additionally there are downy and red head woodpeckers, owls, hawks and the occasional eagle as well as the normal jays cardinals and smaller birds. I know some development will happen therefore I would support the development plan that caused the least permanent damage to the habitat as in concept 3. .
- Leave the community roads closed to through traffic. This has the potential to create a negative impact on a quiet low crime family community. With this proposal in all probability you will be creating an environment that could increase crime substantially. vandalism, home invasions, Personal harm, car thief. The list is endless to the potential harm that you could be creating in your desire to have a park of this magnitude in this area. Is our safety/concern not worth some serious consideration?
- I do not want a park at all in this area.
- Disc golf course!!
- Like concept 1. Would not mind seeing and outdoor pool.

- Do Not Open Hospital Drive to additional traffic. It is already so dangerous and highly trafficked for Fox Chase residents.
- In light of rapidly developing climate change, it is time to rethink the priorities of Rec and Parks. The top priority should be the health of our residents. Wooded parks should be left in their natural state. Trees are our best defenders of clean air and clean water. Cutting down trees puts residents at risk in a county already struggling with stormwater runoff and poor air quality. Let's prioritize "land preservation" in the 2022 plan, for the health of the county, both now and in the future.
- There are no dog parks in the area and we would love to have one. We used to love going to Broadneck park when we lived close to it.
- Speeding is already an issue on Hospital Drive. What will be done to control traffic?
- I didn't even know this park existed, please include better advertising/signage/awareness in the plan
- None
- As there are many young families with small children, we do not currently feel as though increasing the amount of car traffic through the fox chase community would benefit the safety of its residents
- Don't build it here. Too much traffic through low speed residential roads where a lot of people are out walking or bike riding all the time.
- We need affordable INDOOR tennis and/or pickleball facilities please!
- Skatepark please!
- It is not ideal to have the access road through the neighborhood. This has to be planned better - a way that won't disrupt the neighborhood's peace.
- I do not think a park is a bad idea but having access through our residential neighborhood would be detrimental to our peaceful environment. Opening the end of hospital drive would cause traffic congestion on the shoulders of the road, possible vandalism/ theft and people speeding on hospital drive.
- I am opposed to opening the dead end on hospital drive and the end of mall road!
- There is concern about the entrance as displayed on these concept plans. I have heard neighbors feel an entrance off of Hospital drive would better serve the community.
- We do not need to destroy more trees. Our quiet neighborhood does not want the extra traffic and noise this would bring.
- The increased traffic on Hospital Drive could potentially choke traffic limiting access to urgent hospital access which already happens with current residential patterns.
- The interaction of Hospital Drive and Oakwood has multiple accidents and is congested during peak commuter hours. I would not like to see this area developed increasing traffic further.
- Keep the park away from Fox Chase community. We like your safe quiet community as it is.
- Best would be trails, road into park, some parking; restrooms/spot-a-pots, playground, some picnic tables/small pavilions, any sport facilities shouldn't much alteration to natural areas. No development! Buffer area between park and existing homes. Pedestrian/bicycle access to park from B&A trail and surrounding communities.
- Why is it called Marley Creek Park? It doesn't appear to have anything to do with the creek? Another name would be better.

- Is it currently a park?
- We have way to much traffic on Foxwell Road as it stands
- We as a community will pursue speed bumps
- People fly along a 25 mph speed limit now
- There are plenty of other things this money could be used for besides destroying the natural habitat of 100s of species.
- n/a
- Why would you create a park to wrap around a community? Foxchase is a nice neighborhood tucked up off hospital road and you want to bring more traffic down hospital drive and through our neighborhood? That is ridiculous. We have Kinder Park, Lake Waterford, Saw Mill and other area parks already in the area. Why bring this and crime to our section of the county. Leave the land as it is. Let the wildlife have a place to live.
- Please add indoor tennis courts and a indoor multi-sport facility
- Baseball and multi purpose fields.
- Yes to dog park for sure. There are almost none of those around here.
- None
- Tennis Courts please
- label the roads on the image you shared to make it easier to figure out where it actually is.
- This will disrupt so much nature & wildlife not to mention add unwelcome traffic & crime to this community. The current community playground is vandalized constantly, who is going to maintain this "park" and keep this area free of vandals? Why do we need to constantly tear down natural habitats and destroy homes of our wildlife? We don't want or need more development in Anne Arundle county, we need to leave these areas as-is & stop destroying the last of these undeveloped areas.
- Noise would be a major dislike because of the close proximity of personal residences, otherwise course sports would have been rated higher. Any comments are at a severe disadvantage because their basis is the current environment and there's no consideration for future plans such as increased housing and its strain on existing facilities. This area has a tremendous need for indoor accommodation of activities sports during the winter months.
- No change. Focus on other parks first. Southgate is nearby, plus Old Mill HS.
- Concept 2! Need skateparks!
- Concept 2 was the best design even though there were not Sport Courts
- Please leave the most trees possible. We need more natural areas untouched by humans and cement.
- I would love to see this park connected to the B&A Trail since it is so close to it already
- As a resident of the Fox Chase community, the general consensus is that we do not want a park as this would create through traffic in our community. By doing so, there is a risk to an increase in crime as well as noise pollution in an otherwise peaceful neighborhood. There are already nearby parks, such as Kinder Farm Park, as well the park on Aviation Blvd. Furthermore, there is a Moose Lodge on Crain Highway. Adding a park will only anger the community as oppose to enhancing it.
- Leave the land in its natural state not needed for the area.

- This is an optimal spot for an indoor tennis court. Not only would it draw business from Arundel County residents, but Howard County players would play in USTA leagues that could be held there.
- Dog park and more sports fields for the children in our community.
- Greatest need is for more weather protected tennis courts. With onset of pickleball competing for tennis court space in the county, need for more tennis only courts has intensified
- None
- Mountain bike trails would be amazing!
- Disc golf
- This ecological diverse forest provides ideal habit for many amphibians, reptiles, birds, and mammals; integral piece of green corridors providing sanctuary for wildlife, carbon sequestration & generating oxygen. By default this park area has been and should be conservation area. It encompasses one of few small & delicate, significant headwater branches of Marley Creek. This ecologically sensitive natural area deserves protection. At most development, a trail & pavilion with restrooms.
- No Archery, Basketball or loud Ampitheater. Yes for Disc Golf, Tennis, Pickleball, Volleyball, Baseball, Separate Large & Small Dog Park Like on BrockBridge Rd. Archery only if foolproof safety can be achieved.
- N/A
- Adventure sports aren't cool anymore and how do accidents impact Anne Arundel our taxes. Option 1 is best in our opinion. We wish the roads didn't go through our neighborhood as their are NO stop signs on that entire street. It will quickly become a drag racing course without speed bumps or stop signs of some sort.
- No one should ever have to drive through a neighborhood yo access a county park, that is insane.
- Would love to see this space developed into a park. Please also consider a path connecting to Villaggio Enclave, a small neighborhood at the southeast of the land.
- No park
- People have been trying to get a skate park built in the Severna Park area for over 30 years. There are plenty of ball fields. Plenty of courts that get unused in this area. No need for any more fields. Make a huge state of the art skatepark and the community will flourish.
- Keep it nature focused, walking trails, gardens, picnic tables, and connect trails to existing parking next to LA Fitness.
- Love to see an expansion in the parks in Anne Arundel county. I have to travel to howard county to go to a park with current upgrades.
- Stop destroying all the trees! Wildlife has no where to go. Overbuilding in AA County as it is!
- It would be great to have indoor tennis courts
- I would absolutely love to have more archery options in the county. It would also be nice if the county would open up more of the land they own for hunting. Deer are overpopulated in our county and there are plenty of hunters that would like access to where they live.
- We have enough traffic to deal with with just our residents coming and going.
- This land need be left "AS IS" there's no need to rip out every tree in AA county to build a park that isn't wanted or needed.

- Personally I will fight it with any and all means possible!
- I have emailed not only Allison Pickard, Director Jessica Leys, and now County Executive, Mr. Pittman. Please do NOT put this park in our neighborhood. This is not desired by anyone in this community. Imagine if this were your own home. You would not want to open up your backyard to this. Please I am begging you do not destroy our quiet Fox Chase community for this. Please read my messages and emails from jennsaguepsu@gmail.com - Jenn Etherington.
- Concept 3 for the simplest most natural park space
- Please do not build this park. I am a resident of the neighborhood. The park would increase traffic and crime in our backyards! Please no park!
- Being one of the high-ranking counties in the DMV area (compared to Howard, Montgomery, Fairfax), we have the lowest end parks and recreations sites. There are no in trails, playgrounds structures are very small, parks are not well kept and made secure with cameras, more landscaping and bathroom facilities are needed. There are no public indoor court facilities, such as tennis, causing youth to not be able to practice and play year around for free, except that of another county, 30 mins away.
- Leave raw land
- There are a variety of animals and wildlife back there and it should stay as natural as possible to be aware of everything around there and keep it as undisturbed as possible. It's always important to think of the wildlife you are affecting in the process of building.
- Please do not open up Mall Road. Our children live in this family community and the potential for crime and accidents would increase. Please consider accessing this area from Elvaton or Hospital Drive ONLY. Ideally we would rather the land be left as is.
- We desperately need more courts for tennis!!!
- Foxwell Rd. and Mall Ct. cannot handle the traffic opening this park will bring. Purchase land off of Elvaton Rd to create an entrance that is not through communities.
- Please add more amenities
- Disc Golf course.
- Leave it as is. Leave it in natural state for local wildlife.
- Aa county needs a better tennis facility. A lot of people I know have to travel to Bowie and Howard county
- Dog park most needed
- I love the idea of a small park with a small amount of parking. I don't think it is appropriate to put a park with multiple athletic fields here as the only access is through residential streets
- This would overwhelm this neighborhood with traffic
- No park is needed in this area
- Please add indoor tennis courts and outdoor tennis courts with lights and knock boards. We need indoor tennis courts, so tennis players can continue to practice during winter months and rainy days. High school tennis teams have no place to practice during winter and spring to prepare for the tryout in early March. Parents have to clear snow, mop, bring our own leave blowers and dry the outdoor tennis courts with towels in order to regularly have team practice in March-May.
- Anything by Concept 2, taking half if the area to put in a road feels like a complete waste. Leave as much of the land to nature as we can.

- None
- Indoor tennis courts
- Currently the area is not being used as a park at all, so any change would make it more useable. I live in Fox Chase which would be directly impacted by any of the concepts and am amenable to nearly all of the concepts so long as there is sufficient parking.
- Turf Fields and Indoor Turf
- Please include a playground with any of the options!!!! I like the amount of parking option 2 proposed. I like the sensory garden from option 3, but would rather have the playground from option 1.
- No entry through the neighborhood. Hospital dr access only
- This would help make up for losing most of Old Mill Southgate park to the new school
- None
- Anne Arundel County needs more tennis and pickleball courts. These should be separate courts. Tennis and pickleball are different sports with different size surfaces. Tennis requires more space and it is dangerous when it is played next to a smaller pickleball court. Parks and recreation should stop converting existing tennis courts to multi sport tennis/pickleball courts. There are no longer enough courts for both sports due to the popularity of pickleball. Any new courts should also have lights.
- Please leave space for wildlife. Improve existing parks instead.
- Stop destroying the wooded areas!!
- We have a quiet community. We want to keep it that way!!
- This is right in my backyard. I would have to move- I am not living with a public park in my backyard.
- Do not allow access on Mall drive. The entrance should be on Hospital drive. To have an entrance through a neighborhood where children ride bikes and many people walk is dangerous and irresponsible.
- Disc golf and pickleball please
- Please place the park which would be helpful to children and community that less affluent. Where children in apartment buildings can walk to enjoy the outdoors and its amenities. Fox Chase residents are well off. Put the park for it can serve a greater need
- Would love lights at the multi purpose fields and restroom facilities.
- We need some indoor tennis and pickle ball courts. We need more outdoor tennis courts and separate
- Pickle Ball courts
- Indoor is helpful for colder months as not much for teens in the area
- Improve the already existing parks. There is no need to add this park. I oppose opening up Hospital Drive and/or Mall Road. It will bring added traffic and crime to our neighborhood. Hospital Drive is already a drag racing strip.
- Need a park to replace the one that the middle school took away off Old Mill Rd. I just moved here in September and not replacing the park is a travesty!!
