

Comments Received – West County Park

- This would be an excellent location for a disc golf course. A course here could make good use of the existing woods and terrain with minimal long-term maintenance required. There is a large and growing community of disc golf players in the area that would be well served with a new course in this park.
- We need outdoor tennis courts in Anne Arundel County
- I would really like to see a playground and leave a lot of it natural for our birds and other wildlife. Please leave as many trees as possible.
- You are putting a park in between communities. We already have shootings, helicopters, etc in this area. So now we will open up these small areas and bring the elements in here. We will have traffic challenges on Reece Road, parking and teenagers using yards as pass throughs. Crime and safety of the residents will also need to be considered. We also need a Police Precinct office on this road since shootings and crimes are happening daily. Address those items in this area and make it safe 1st.
- we need more space for kids to play sports
- For this location, please propose an INDOOR TENNIS COURT, instead of indoor street hockey track, or football. There are many youth in the area who have amazing tennis skills and are looking to better themselves and possibly compete one day to represent our county and state. The AACTA an amazing program, along with private and public coaches that teaches youth and organizes games but cannot do it year around due to there not being an indoor tennis court facility.
- have paths to encourage outdoor walking to include bikes, strollers. Family areas with playground /picnic area. We have a good amount of sports multi purpose fields already.
- More tennis and pickle ball locations please
- Tennis courts with lights are the BEST! Yahoo
- I do not like any of the options above. I think a nice wooded area with walking trails, a playground and an open field or 2 are enough, especially with the huge renovation to severn Danza park just down the road. I do not think an atv course is wise as this is in a residential neighborhood and noise is going to be a constant on going issue with local neighbors calling law enforcement due to noise violations
- We need indoor tennis courts badly, our county tennis association has over 3000 members, which doesn't include all the kids that play, yet tennis only has one indoor option in the county, at the Navy Brigade which requires military personnel on the court. Tennis unlike soccer, football, lacrosse and baseball cannot be played in the rain. We love pickleball as well, but it should be noted that there are now several indoor pickleball facilities provided by the private sector in our county.â€
- For a more rural park not within ear shot of residential areas, this is the ideal place to put the louder & larger park activities like indoors sports & climb parks, skate parks and bike paths. Walking paths and ATV paths. This gives the area a true recreational environment.
- It would be great to have indoor tennis courts
- Disc golf course would be great.
- Having a park behind my home will make me and my family feel unsafe as they have been shootings in that other parks which we don't want in our area

- Indoor tennis
- Affordable/free for low income families indoor court sports is the highest need in our community. We need indoor spaces for kids to go instead of being in the streets!
- Tennis indoor and outdoor please.
- A disc golf course would be very nice.
- none
- This neighborhood is too small for a change to the park. This will make traffic even more congested in a quiet, family neighborhood. Leave our neighborhood alone please!
- I am concerned about noise and crime.
- We love the idea of a park expansion; however, we feel that Severn and the surrounding areas have a lot of outdoor space, especially parks, dog parks, outdoor sports fields, trails, etc. Severn could really use an indoor facility for volleyball, basketball, etc. Indoor courts for public use would be such a great asset to the community and would be welcomed with open arms! If outdoor space is placed, please consider adventure sports for the youth! Rock wall, archery, ziplines, etc! Thank you!
- Open bathrooms! I would like to be able to take my potty training child to the bathroom when needed while at the park!
- Indoor tennis and/or Pickleball courts
- Disc golf course would be perfect in this space.
- Facility for rentals
- More baseball/softball fields
- Bathroom facility and playground would be preferred
- Undeveloped is best
- We need affordable INDOOR tennis facilities.
- We need affordable INDOOR tennis facilities.
- .
- Park with Trail and playground and a baseball/basketball field would be great access to our community.
- This is a prime location for a disc golf course. As the individual that started and built North Glens course I can attest that a course would benefit the land and the nature itself. A course will bring a dedicated club that will maintain and improve the area.
- Discgolf
- Disc golf please!!
- Although my kids are done with the need for indoor field facilities, our county is woefully behind other counties in this regard and it would be nice for others to not have to regularly drive out of county for these facilities like we did.
- None
- I prefer Concept 3, but with the inclusion of a water splash pad for kids on hot days near the lower pavilion along with a playground and/or basketball court/s located in that same lower section of Concept 3.
- thanks
- Would like indoor and outdoor tennis facilities!
- Would prefer to keep the wooded area.

- Bringing a lot of traffic to an already congested road and area.
- The Community needs more common areas and activity centers.
- Please focus on our youth and intergenerational sectors. We need to interact and relate. All voices must be valued and heard.
- I think giving adults some place to be active is just as important as the kids. There are plenty of sports fields around the county. Put a disc golf course, nature trails, etc at this park.
- We are in such need for tennis courts in AACO. Especially indoor courts as fees for indoor courts are so high and making tennis not available to many over the winter.
- We need more indoor tennis courts!
- Definitely some trails to run or bike. Indoor soccer sounds great.
- The BMX course at Severn Danza is so close, I don't think another one a mile away would be needed
- Interactive trails, nature playground, large sized playground like Howard County, picnic tables, ice skating
- Indoor tennis courts!!
- Disc Golf
- Large playground for kids. There are a lot of young kids in the neighborhood. Be nice to have a toddler and a big kid playground
- .
- We really need an indoor tennis facility we have one of the biggest tennis counties and it's sad we do not have one. Doctors. Site would be great
- Indoor tennis courts
- We need more indoor sports options with free time for children to enjoy and practice at their leisure when the weather is not conducive for outdoor play. Also, playgrounds need to be designed like Howard County and PG county. AAC playgrounds are lacking in comparison.
- I recommend that activities available in the new park provide resources that do not duplicate those resources that are currently available to all community members within a set distance.
- Indoor/outdoor pickle ball would be great
- Disc golf brings people together
- N/a
- Edgewater location would be wonderful!
- No specific comments
- Indoor tennis should be a priority in AA County
- Please add disc golf to the park it's a fantastic and healthy sport the whole family can enjoy ! Michael "Cheesy" Harvey, PDGA # 10478, Curator/Owner of the Southern Maryland Disc Golf Museum/Hall of Fame based in Owings, MD.
- Disc golf please! Would make me so much more likely to come use this park
- Could this park be in an area that is not off the main through way? There are a lot of accidents now and with the addition of a park and kids, it would open up the possibilities of more accidents and kids getting hit. There is the huge curve on Reece Rd right at the intersection of Loving rd and Reece rd that makes the area a dangerous already. There's not a large number of kids in the area.
- Bring in the disc golf. It's good exercise that anyone can enjoy, a whole family.

- I'd prefer to keep the noise level down, recommending indoor sports options. This area is very close to existing housing.
- Reece Road is already so busy throughout the majority of the day, I think this would only make traffic worse. I would rather leave as-is. Emergency crews already have enough trouble getting down Reece, would hate to increase their obstacles even more.
- Indoor facilities will bring the most value due to all year round use. Please select Option 2. Most of the new homes in this area have very small lots and as the kids grow, there will be need for all year round facilities.
- An undeveloped property would be a great location for a disc golf course. Other courses in the county have been put in around an existing park where possible, having a park where the disc golf course came first where the park could be developed around it is something we don't have in the area. Would allow use of the property without removal of the wooded areas while also leaving the option of walking paths around the perimeter or through the course.
- Please don't build an indoor place.
- Concept 2 is what AA COUNTY disparately needs
- Don't want to have have a course for bikes. Don't want to give kids a reason to bring motor bikes in the area.
- Please leave as is. Too much crime already in this area. Tons of other parks that currently exist that no one uses. We don't want any rec activities in our backyard. Leave is as a natural preserve!!!
- I prefer a park that has walking trails and natural areas.
- Razing 14 acres of woods just to add in more multi-use fields/dog parks/indoor recreation is a waste. The local wildlife already fights for space, all 3 of these ignore that problem.
- i do nto think an atv park is a wise idea. indoor would be cool. track would really be nice for kids & adults.
- Disc golf course please
- All looks good for me and my family. Some more desirable than others.
- Very wooded area should be left undisturbed for the existing wildlife. A passive recreation such as walking/hiking path would allow access to the area w least disturbance.
- More indoor courts are needed in the county that is not attached to a school that controls permits!
- The location of this park is very near recently constructed housing. Reece Road is a two lane road and is heavily traveled. The traffic frequently backs up from the Severn Road traffic light and often times from the Telegraph Road traffic light. We don't need more traffic. It can be very dangerous turning onto Reece Road from side streets, especially Loving Road. This will be compounded even more when people have moved into the newest development across from Loving Road.
- I prefer Concept 1. Preserve/enhance green space while providing recreational activity as well.
- Comment
- None
- Noted in other submissions, skate parks offer the widest use of multiple sports including skating, rollerblading, BMX, and scooters. The park design can also double as an open space for

community and handicapped accessible (see Encinitas skatepark that was challenging due to community buy in.). Video gives community perspective.

- Skate parks have the maximum use with the lowest entry to enjoy them. Skaters are welcoming, supportive and inclusive
- indoor pieces would be helpful
- ...
- Playgrounds for kids to utilize.
- Biggest concern=MORE TRAFFIC. Reece Rd can't handle any more development which brings with it more traffic. This is one of the main thoroughfares to Fort Meade. Between the Fort Meade traffic and the Elementary School traffic (currently three schools on this road), we cannot handle any more congestion on this 2-lane road. There are plenty of athletic fields in the area already. Improve what we have. Do not clear more land please!!!
- Please add a disc golf course!
- Pickleball courts, Anne Arundel county is behind the times and is missing out on the fastest growing sport in America.
- The indoor facility in the rendering is very cool.
- Mainly want to see playgrounds, Pickleball courts, and nature trails
- Concept 2 is a must. Total concept to accommodate the needs of community.
- We need INDOOR tennis facilities here!
- ATV course would be great, especially if rentals were possible. This park location looks far away enough from neighborhoods.
- I love the idea of a ATV trail. There is very, very limited places for people to legally ride dirty bikes, 4 wheelers, and go-karts. My family would like that immensely. It will also give a legal option for the youth in the Pioneer City and Meade Village area that ride dirt bikes in Severn.
- Disc Golf!
- Pickleball courts, please
- Disc Golf is highly recommended. The growing popularity in the sport is not anticipated to drop anytime soon. A disc golf course would bring visitors not only from the county or state, but from the country. The sport is played year round and is friendly for all ages. Locally, the North Glen Disc Golf Club is the most recent success story of transforming a park that was minimally used for recreation and a haven for drug related activities, to one of the best courses to play disc golf in the state
- More Pickleball
- Disc golf course!!
- Would love to have a dog park in West County and also some indoor soccer facility.
- Love the indoor track idea, my vote is for concept 2
- More outdoor facilities are needed and appreciated. This would be a nice location for an ATV Trail!
- Leave the trees, add a wooded walking trail.
- Bringing recreational activities so close to my community, my backyard, will only attract strangers roaming behind my house. I don't feel safe knowing this could be true. I moved out of Baltimore to seek peace & quiet and privacy. And I have just that with the current trees &

wildlife. Please leave the park as is. Reece Rd already has enough police presents due to other close by recreational activity shootings. This will only bring it in my backyard. Please keep it as is.

- Disc golf
- SKATEPARK
- Don't build or add a park the area is too congested already
- Looks like if a multipurpose field should be added, it should be placed in the South West space that is already cleared if it can fit. We should not place items with small footprints in the cleared field like a pavilion or skatepark. These should be placed in the woods so fewer trees need to be removed.
- Disc golf course would be awesome
- Option 2 would benefit a lot of people.
- Would love to have an outdoor pool somewhere in the county!!! If not, an indoor pool closer than North Arundel would be great.
- Too many single family homes nearby for the noise associated with ATV trails.
- An ATV trail next to a residential community? Someone wasn't thinking. Stop bldg dog parks. Do we really need another BMX track? I like the 'out of the box thinking' 'for AA County at least'! I am heavily involved with 'traditional' sports but feel this area could use the non-traditional thinking, i.e.
- Indoor facility for the travel teams will make Severn more attractive.
- My family and I are all tennis players, so we'd would love a court nearby. Also my wife plays field hockey which requires an artificial turf field. It would be nice to have a multipurpose field that is turf for soccer and field hockey. Dog Park would be great too.
- Need more affordable indoor tennis courts
- Disc golf
- We would love some public indoor courts. My family all play tennis and it's hard to find a space to play for half the year!
- Indoor affordable tennis courts really needed.
- We desperately need affordable indoor tennis court facilities within AAC. Please make this happen!
- Please add the indoor street hockey rink! This would be incredibly valuable to a large youth hockey presence in the surrounding area.
- Disc Golf course preferred.
- There are few available tennis courts in the county. Would love to see this and pickleball courts added.
- Green space is limited in Severn and I'm not sure the drive to develop every inch of wooded area is good for the community. Traffic along Reese Rd is always a concern and additional traffic will only worsen the congestion. 174 is not well maintained by the State and the county does not pick up the slack.
- Indoor youth rec baseball/softball. Track inside too.
- We desperately need more indoor sports options for kids. We have no indoor tennis other than very expensive at Chartwell and only for the military at Navy.
- Beautiful gardens, concerts, waterparks, lazy Susan, festivals
- Competition Pools/Aquatics Facility

- Disc golf is a great use of space with minimal environmental impacts.
- I think a community pool would be an amazing idea! And the equestrian community would love a riding ring and it would bring a lot of new people to the area
- Please put in a pump track and jump trail (see Rockburn in Howard County and Germantown South in Montgomery County for other examples
- Indoor tennis and pickleball
- We need affordable indoor tennis facilities.
- Not Applicable
- Dog Park
- indoor would be nice
- We need indoor tennis courts in Anne Arundel, please! I currently have to drive over 30 miles to PG County or DC to play in the cold season. PLEASE 🙏🙏
- And please don't waste precious indoor space on pickleball - the fad is starting to wane and they are multiple indoor options in the county already!
- This would be a great addition to the growing Disc Golf community. Thank you for the consideration!
- Disc golf <3
- ?
- Please install a new disc golf course here. Our current courses are overcrowded and the sport continues to grow. This is also the most green use for the property of those proposed.
- There are very limited indoor soccer spaces to use in the county and I would love to see another option for rental spaces to support youth athletics.
- DISC GOLF COURSE!!
- It would be nice to have indoor tennis courts
- We need affordable INDOOR tennis and/or pickleball facilities please!
- none
- This would be a great location for a disc golf course that also suit as a safe walking trail.
- Disc Golf!
- Indoor park would be awesome for the kids in the colder months. Track & field is much needed!
- Indoor tennis courts
- none
- Skate park or pump track would be ideal
- Tennis please.
- Disc golf please
- Tennis and basketball courts. Indoor and outdoor
- We really need an indoor tennis facility. We do not need an ATV course.
- We need to save Forests now! Any of the above facilities can be built in areas where there is already development. Please search for the abandoned malls, etc.
- I have grandchildren and know that all ages need places for sports, etc. But, everyone also needs Nature which is quickly disappearing.
- Kinari Webb says in "Guardians of the Trees":
- "deforestation releases as much carbon as the entire transportation sector for the whole world."

- Heed her warning!
- Outdoor sports and many aspects are already covered by Danza and Provinces. Many dog parks are already within the region. Traffic and speeding are already bad on Reece. 200+ more cars will strain the existing roadway.
- Make the park unique. Make Severn unique.
- Please consider adding indoor tennis courts or at least some public courts outside. We do not have near enough courts compared to other Maryland counties- Montgomery, Howard- have great indoor and outdoor options for their residents. Thank you!!
- Consider walkability
- As an experienced disc golf course designer, I'm open to head this project. There will be no expense to the County as our community will execute the effort as we did at Kinder, North Glen and Bacon Ridge.
- There is a glaring and desperate need for indoor tennis courts in the county.
- Please give the tennis community some indoor tennis options! Our neighboring counties have 12 public indoor facilities. We have none. Residents travel to other counties for tennis programs and court time. Neither Chartwell County Club nor the Naval Academy courts are public facilities.
- Hoping for affordable indoor tennis courts in the area.
- Please consider a couple indoor tennis/pickleball courts. We currently have no indoor public tennis courts in Anne Arundel County.
- I live at 1061 Loving Rd in Severn. The proposed park will be next door to me. I do not care to have all the traffic or noise to be my neighbor. Plus the possibility of reducing the assetment of my property. This is a residential area not a sports complex. Maria Archer
- Na
- I would like to see outdoor facilities. As a Severn resident, I feel like there aren't many parks and trails in our area. Another athletic field would be nice since field availability is at a premium around here.
- If you do an indoor area, it should be multi-purpose fields, not just for one particular sport.
- Disc golf!
- Disc golf!
- Tennis and/or pickleball indoor courts.
- ATV trail would be super fun at this site.
- The county needs affordable indoor tennis courts.
- Current State is preferred otherwise Concept 3. Pls consider community traffic & safety. Reece Rd is not easy to traverse now during Ft. Meade rush hours. Will there be surveillance cameras w night vision and a gate? What kind of noise, traffic and light pollution will this bring to the area? It's a shame to lose the little bit of natural green space in the area as it supports the deer, foxes, woodpeckers, humans and other species. trees help reduce carbon pollution
- West County is limited in recreational spaces for children especially toddlers and teenagers. As one of the only updated options at this time, it'd be ideal to have at a minimum a 0-12 playground with an adventure/course adventure to appeal to both ages groups.
- Please Please Please!!!! Don't bring crime to my backyard!!!!

- Please add a school bus stop for the children from the crossland community. Currently, their pick up and drop off site is not safe.
- Keep grounds as natural as possible.
- A lot of great ideas. Lacking in the Odenton/Severn area are indoor facilities, adventure sports and court sports, though we are lacking in park space in general considering our population. I'm least interested in equestrian space as horses are not as popular here as they are in other parts of the county.
- There are important considerations that should be taken into account. Many residents, including those in low-income housing, have chosen to reside here due to its relatively quiet and peaceful environment. Introducing a recreational park, with the associated noise levels and potential increase in traffic, might significantly disrupt the tranquility we currently enjoy. Studies have shown that the proximity of recreational facilities to residential areas can have an impact on property values.
- Affordable indoor tennis courts are the greatest need.
- Multipurpose and sports fields
- Leave undeveloped land as is.
- We need more affordable and easily accessible indoor facilities in AACO. There is a strong tennis community that has been asking to be heard and acknowledged. Please help support the tennis community and all the benefits, both physically and mentally that it brings to our county!
- I would love to see a new disc golf course go in to the park. I work with local and state parks (Patapsco Valley State Park) to help build and maintain disc golf courses in Maryland, and we have seen tremendous growth in the sport the past 3 years.
- Concept 1
- Nature garden, outdoor sensory play, nature playground is needed in our county.
- We need indoor tennis courts badly, our county tennis association has over 3000 members, which doesn't include all the kids that play, yet tennis only has one indoor option in the county, at the Navy Brigade which requires military personnel on the court. Tennis unlike soccer, football, lacrosse and baseball cannot be played in the rain. We love pickleball as well, but it should be noted that there are now several indoor pickleball facilities provided by the private sector in our county.
- It would be great to have indoor tennis courts
- Concept 2 is great. Indoor football field is a great idea for this area, maybe include a weight room. Basketball and volleyball courts are great too. These would serve the residents of the area better than some of the alternatives.
- Add tennis courts as well as indoor tennis facility for play during the winter seasons.
- We desperately need affordable indoor tennis. We also need biking activity areas such as a pump track and jump trails like at Rockburn in Howard county and Getmantown in Montgomery county.
- Definitely need basketball, tennis/pickleball, and some open green space (soccer field type grass). I LOVE concept 2 all the way! I'd be there every day. I weigh more than I should and this would be awesome for me physically as well as mentally for exercise purposes. 70/30 mostly work from home so I'd utilize this facility a lot.
- Disc golf all day!!! Need a county funded course, we currently have 2.5 courses in AACO and all are funded by volunteers. I personally delivered a disc golf professional development to ALL

Anne Arundel county PE teachers this August, so students all around our county will be looking for places to play. HELP THE KIDS!!! Please reach out if you would like more info on how the game is growing and the social, emotional, physical benefits it can bring ALL residents!

- N/A
- I would love to see edible berry bushes along paths and areas for community vegetable gardens (perhaps raised beds) in park areas.
- I so appreciate that we have parks, and they are especially welcome as AA Co continues to see development. Our county is woefully deficient in locally grown fruits and vegetables and it really wouldn't take much to offer some portion of county park & rec space for community gardens (and/or plant attractive edible landscaping)
- Thank you!!!
- My preference would be court sports.
- AA county needs more parks so the community has a place to be active socially and physically. In order for all its residents to be mentally and physically healthy all year round, indoor facilities and outdoor lights is a must.
- The county needs more lighted tennis courts. Short winter days combined with the competition with pickleball players for courts make it difficult to find ample resources to play tennis.
- Something similar to Severn-Danza where you have walking paths/natural areas, community facilities/pavilions and playgrounds , athletic fields, and court sports seem to be a good mix.
- We need more ice space for ice hockey in the county we have so many kids who play and not enough ice time.
- None
- Disc golf!
- Disc golf
- Please bring a disc golf course to the area.
- Disc golf idols fun for the family
- Disc golf would be greatly appreciated.
- More disc golf
- Pickleball is the fastest growing sport in America. Annapolis has A LOT of places to play, and there is a large group that go to Annapolis because there is no where in the area to play except at Danza Park, where you have to bring your own nets, not permanent nets, and the courts are full of cracks. If put pickleball courts in Severn, the county could have leagues, tournaments, and create the Severn Pickleball Club, and I would be glad to help create this league and club. Also a dog park.
- I recommend leaving the park in it's current state. Adding a park of any concept will only add more congestion to Reece Rd. I am a resident and a homeowner in the area and adding a park will only bring the crime closer to my home and reduce my property value. There is a park on New Disney Rd. and there is a facility on the opposite end of Reece Rd., not even a mile down the street. There really isn't a need for an additional park that will increase crime and congestion in the neighborhood.
- Disc golf please.
- Disc golf!
- Tennis courts please!!

- A splash pad would be a fun summer amenity.
- This will ruin the quite peaceful neighborhood that we purposely looked for and purchased in. I worry about everyone and the kids we feel safe letting out in the neighborhood to play with all the traffic and potential crime this will bring.
- We greatly need affordable indoor tennis facilities. We currently have none in Anne Arundel County. Please consider this.
- N/A
- Please preserve as much land as possible. We need more trees!
- Concept 2 makes the most sense. Having the fields indoors will allow the residents to use the facilities year round.
- Disc Golf course would be amazing. It's a great way to build a community of people and get them outside.
- N/a
- An indoor and outdoor running track would be good since the county doesn't have one that I know of. I like that there is proposed shade in the outdoor parks. Bathrooms and water fountains are greatly appreciated because then you can spend more than an hour or two at the park. For any playgrounds a fence is good. In concept 3 could a dog park be added to the open area where a dog park is placed in concept 2?
- Turning onto Loving Rd could be problematic and with kids having to wait at top of road for buses, it could create a safety issue that would need to be addressed.
- Leave raw land
- None
- Our community needs more trails and outdoor activity space like our surrounding counties.
- We need INDOOR tennis facilities here! I love to play and enjoy the community park however during the 4 months of the year when often it's too cold to play - and I can't afford to join a private club - I would love to still have my activity of choice (Tennis) and stay healthy out on the court.
- none
- Indoor and outdoor Pickleball
- Would love to see more disc golf!
- Indoor tennis please
- Indoor tennis courts
- Need more soccer fields.
- Definition would be cool to have atv trails or bike trails or even walking trails
- Athletic fields would be important if Provinces is repurposed. Indoor area is important for outlet during colder months for the community.
- Disc golf course would be awesome!
- The neighborhood needs more tennis courts, which can be used as Pickle ball courts also.
- Disc golf. Disc golf! DISC GOLF!!!
- Let's keep the trees! There has been enough natural habitat demolished in the area.
- Na
- Indoor would be awesome
- Disc Golf Please

- Tennis courts should be a major priority.
- X
- Please don't bring crime in my backyard. And leave the habitat for the wildlife alone!!!!!!
- Disc golf would be excellent!
- Indoor Tennis Facility is needed.
- Tennis Courts please
- Consult skaters about a potential skate park (what to put in, etc.)
- If you absolutely must disturb secondary forest habitat and rhizome-rich soil, I'd like to see an outdoor bodyweight gym/calisthenics facility like the Fitness Court at 38th Ave Park in Hyattsville. It would need a diversity of equipment heights and sizes so that anyone can use it, from Simone Biles to Shaquille O'Neal.
- N/a
- Highly recommend indoor tennis courts.
- Thank you
- Please add indoor tennis courts and outdoor tennis courts with lights and knock boards. We need indoor tennis courts, so tennis players can continue to practice during winter months and rainy days. High school tennis teams have no place to practice during winter and spring to prepare for the tryout in early March. Parents have to clear snow, mop, bring our own leave blowers and dry the outdoor tennis courts with towels in order to regularly have team practice in March-May.
- Each park should serve the common interests of the surrounding communities.
- PLEASE! Leave this park as is. There is so much Wild Life in these woods. The Wild Life have no where else to go due all the new construction. In addition Bringing recreational activities closer to my community/house will bring more Crime & crime in my back yard. You will take away my Privacy & that is the main reason I purchased my house. There have been multiple SHOOTINGS on Meade Village Rd & Pioneer Dr due to recreational activities gone wrong. Crime = lower home value & Higher Home Owner Ins.
- My highest recommendation is for the inclusion of tennis courts. There are few public courts in the county, especially in the northern part, except high school tennis courts, which have their own restrictions. It would be especially nice to have lighted courts, as there are so few of those in the county as well. When planning for tennis courts and pickleball courts, please make them separate, not for both purposes, which causes conflicts between individuals playing one or the other.
- none
- Disc golf is great activity to bring people together and get outside!
- AACO is in dire need of indoor tennis facilities, especially the underserved west county.
- Anything having an indoor option would benefit the community year round with potential income for the county or group from events and concessions.
- No one wants a noisy ATV course next to their homes.
- we need more indoor tennis courts
- the less congested the better, please limit number of parking areas! just too crazy and fumes, Gardens and kids and all folks can benefit.
- Baseball Fields

- We are in DESPERATE NEED of AFFORDABLE INDOOR tennis courts
- My strongest recommendation is for the inclusion of indoor public tennis courts. There are no public tennis courts in the county, few public courts in the county, especially in the northern part, except high school tennis courts, which have restrictions. It would also be nice to have lighted courts, as there are so few of those in the county as well. Please plan for separate tennis courts and pickleball courts, not for both purposes, which causes conflicts between players of each sport.
- Making this park walkable to the nearby communities by installing sidewalks would make it more used regardless of what amenities are built
- It has taken 20 years to get a park in Odenton!! This park would be twice the size so will it take twice as long? Also Odenton to be built in two phases...Phase I and Phase not likely to be built. So how many phases and how long will this park take?
- All these indoor fields look nice how about an indoor skate park for the community for the youth that you've left behind that would go long way to make up for the huge deficiencies of the past 20 years and maybe give you something that Montgomery county doesn't have for once.
- Anne Arundel county needs INDOOR, AFFORDABLE tennis courts!
- This is a great idea. Our homes are on very small lots.
- N/A
- All these look great but every park in Anne Arundel County needs to add a skatepark. It is now an Olympic Sport and youth need opportunities to practice. Some children prefer to do individual sports and this would give them an opportunity and still get out an exercise and meet and make friends. There are proven studies that this helps youth in developmental skills.
- We need more ice rinks in area
- I think putting a indoor park would be great for the area
- Current road is already busy during morning and afternoon rush hours and this would only increase that problem as the road wasn't designed for this level of traffic. Recommend leaving in its current state with no development.
- Anything that does not disturb the peace and quiet and does not increase traffic or parked cars close to neighborhoods close by is okay with me. No outdoor basketball or pickleball courts to disturb neighbors please.
- Add atv trails
- We really need an indoor tennis facility in this county.
- Concerts, events, swimming pool, lazy susan, activities for young and old, beautiful gardens
- Public outdoor pool
- Why would you cut down all those trees just to build a sportsplex??
- Also, having a sensory garden next to a loud smelly dog park will not allow people to have a positive sensory experience
- Having an ice skating rink, a track, and multi purpose fields would bring something new to the area and provide access to activities that some may not be able to get to. Concept 2 looks amazing!!!
- Need indoor tennis courts

- A park with sports and an up to date playground would be my pick. Also to not have all the parks the same- to have a different theme to each one. PG country has done an excellent job at different parks!
- Indoor tennis, more than one court.
- Thanks
- Pool?
- small trails can be incorporated. don't cut down too many trees
- There has been no control of the surrounding neighborhoods (Mead Village and Pioneer City) with the violent crimes. Now with the proposed plans, the elements are now going to be in my backyard. Within the last few weeks, six individuals have been shot! Helicopters fly over our neighborhood on a regular basis. Fix the problems with the crime and not add the opportunity of more crimes. We as a neighborhood we didn't have an opportunity to voice our opinion or vote yes or no! Also, TRAFFIC!
- Dedicated disc golf course!
- Leave area as is, there is enough development in this area, the trees are needed instead of clearing for more development.
- There's need for indoor tennis facilities in the area, please!
- No change. This park is out of the way to many AA County residents. Focus on it later.
- We need more indoor tennis facilities
- Concept 2 was the best design even though there were no Sport Courts.
- We are in a climate crisis. We must change our bias toward cutting down forest and building everywhere. Save all forest now! Every deforestation contributes to global warming. Build only in areas that are already developed. I'm sure you can find places that are already built for every amenity mentioned here. No more impervious structures/parking spaces or tree-cutting in public parks. I have to answer to my Gen Z daughter. If we keep building, what forest will be left in 50 years?
- N/a
- please leave the forests alone
- None
- I am truly excited about the possibility of the County providing such amenities in close proximity to Meade Village youth and the newly developed communities along Reece Rd. However, I am extremely concerned from a traffic congestion perspective. As a Fort Meade employee that travels this route daily, traffic congestion during school arrival and dismissals especially is quite fraught. If the County moves to install indoor facilities, such as a street hockey rink, please also expand the roadway.
- We need more indoor tennis court in Anne Arundel County
- Spray parks for water play
- There is not much green space in the surrounding area, so I believe leaving the space as is would be best. If it was developed, concept 3 would be the best option. I would recommend that the sensory garden be placed south of the dog park rather than around it to prevent any contamination. A playground or basketball courts near the pavilion closest to the road would be a nice addition as well.
- Disc golf course would be a great addition to the park.

- N/A
- Another opportunity for indoor tennis courts. There are zero public indoor courts in AAC. Tennis offers less traffic and parking. Multi-court locations are needed for recreational programming in North County
- I like to see track multipurpose field football field baseball field and pavilions
- Perfect place for indoor tennis courts since you've cancelled all the other projects
- Would love to see all the sports fields along with a dog area!
- Maximize the green space
- Concept 3 is the most appealing.
- Disc golf
- A mix of hard surface sports that can be covered in winter and uncovered in summer.
- Concept 3
- Adequate parking and lighting
- Disc golf would be a wonderful addition since the sport is growing popularity. Archery would also be a nice addition.
- Indoor pickleball
- I like the indoor concept for Loving Road
- I'd love to see a disc golf course go in here.
