

ANNE ARUNDEL COUNTY, MARYLAND
OFFICE OF BUDGET

Bill NO. 75-19

DATE: September 12, 2019

FISCAL NOTE

**BILL: AN ORDINANCE CONCERNING: PURCHASING - ZONING - SMALL
CELL SYSTEMS - LEASE**

SUMMARY OF LEGISLATION

The purpose of this Ordinance is to define “small cell systems”, create an exception permitting placement of small cell systems on existing County structures under lease agreements with terms of three years or longer, amend the definition of “commercial telecommunication facility” to exclude small cell systems and generally related to purchasing and zoning.

FISCAL IMPACT

Generally, there will not be a fiscal impact as the County sets aggregate permit fees to cover the cost associated with the permitting and inspections of certain activity. The County can potentially receive revenues by installing small cell systems on existing structure and leasing them out to telecommunication companies. The fiscal impact is indeterminate at this point as we don't know how many small cell systems are going to be installed and how much revenues are going to be generated.
