- Purpose of Meeting
- Project Background
- Scope of Work
- Existing Conditions-Driveway Sight Distance
- What to Expect for the Improvements
- What to Expect during Construction
- Next Steps
- Q&A

Location Map

- Andover Road from White Avenue to Main Avenue.
- Approximate length 2100 feet.

Project Background

- Intended to improve sight distance for citizens exiting residential driveways.
- Concept study conducted (2017-2018).
- The concept study recommended interim solution-Driveway Sight Distance Improvements.
- Project Advertised on xxxxx
- Project Construction Starts xxxxxx

Scope of Work

- Evaluate existing sight distance at driveways along Andover Road from White Avenue to Main Avenue.
- Improve driveway sight distance by grading roadside slope, providing drainage ditch, and clearing and trimming the vegetation.
- Limited drainage improvements due to R/W constrains.
- Roadway profile revision, pavement reconstruction and resurfacing are NOT part of scope.
- Sidewalk and bike lane NOT part of scope

Existing Conditions-Driveway Sight Distance

- Two-lane, two-way open section
- 30 mph post speed limit west of culvert crossing.
- 35 mph post speed limit east of culvert crossing.
- 40 mph prevailing/85th Percentile speed for sight distance analysis.
- None of the driveways meets 40 mph sight distance requirements.

What to Expect for the Improvements

- Trees and hedges within the sight lines may be removed outside of sight lines.
- Proposed Grading will improve sight distance as following:

9 Driveways – Will meet 40 mph Design Speed

5 Driveways + Buck Cavey Lane – Will Improve the sight distance from existing

6 Driveways – No improvements from existing condition and speed due to sub
-standard roadway geometry

What to Expect for the Improvements

- Grading between driveways #808 and #812

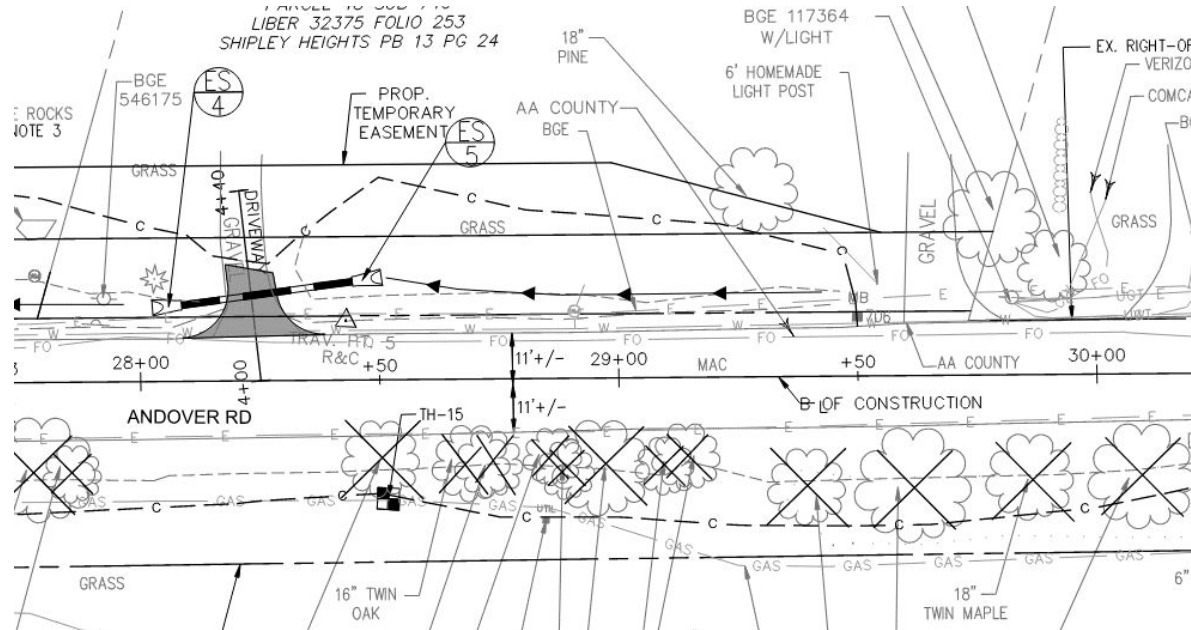

What to Expect for the Improvements

- Grading between driveways #704 and #716

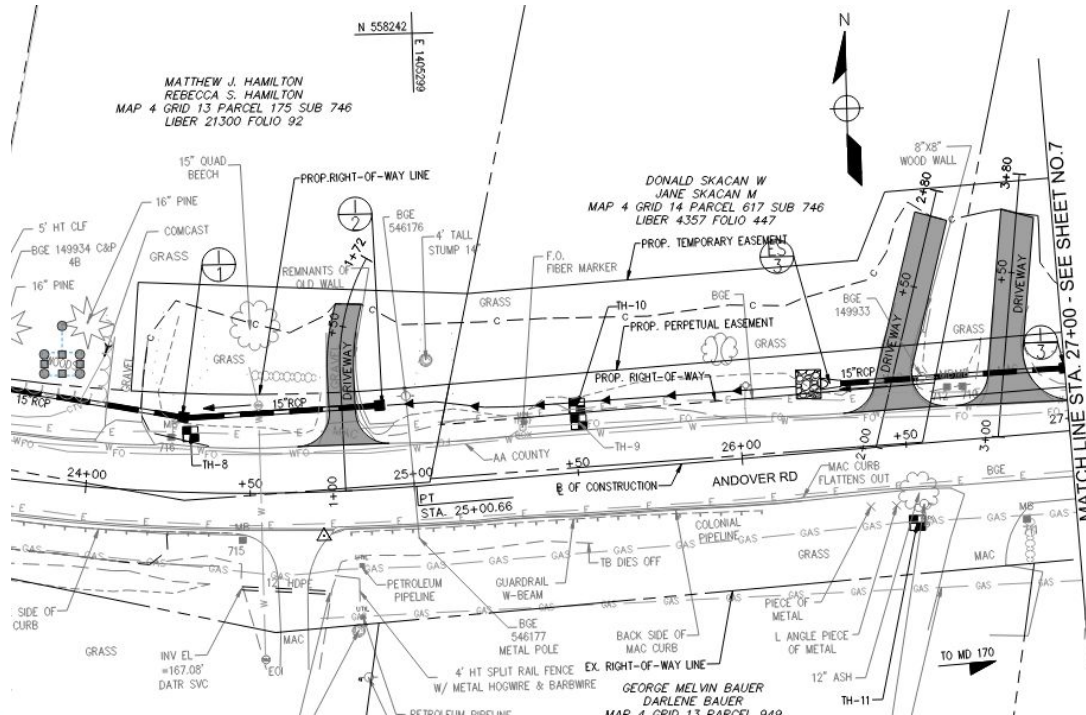

What to Expect for the Improvements

- Drainage Improvements and driveway reconstruction at # 706

What to Expect for the Improvements

- Drainage Improvements and driveway reconstruction at # 710, #712 and # 716

What to Expect During Construction

- Work performed between 9 am and 3 pm.
- One way roadway with flagging operation.
- Utility adjustments include water meter and water house re-connection.
- Mailbox remove and reset.
- Utility pole relocation (already complete?)

Next Steps

- Construction Start Date: XXXX
- Anticipated Construction Completion Date: XXXX
