SUBJECT: Variance/Special Exception/Rezoning

The Health Department has reviewed the above referenced variance request to allow accessory structure with less setbacks than required. The Health Department offers the following comments:

The Health Department has reviewed the on-site sewage disposal and well water supply system for the above referenced property. The Health Department has determined that the proposed request does not adversely affect the on-site sewage disposal and well water supply systems. The Health Department has no objection to the above referenced request but we will need to request a setback variance to the sewage disposal systems.

If you have further questions or comments, please contact Brian Chew at 410-222-7024.
