2024-11-17 14:29:08	Jim	Bongiorno	Odenton	Maryland	21113	Yes		<p>I notified the county council about field lights being used to light EMPTY fields at GORC Park over a month ago. I notified the county staff about the problem over six months ago. Yet, the problem still exists. See the attachment for pictures.</p> <p>My neighbors and I are disappointed that county council has not taken action to resolve this problem. No one from the council has reached out to me. What does this say about the council's customer service philosophy? Does the council agree that it is okay to waste taxpayer money and create light pollution by lighting EMPTY fields? Who should I contact in real time to have the lights on an EMPTY field turned off? Remember, the GORC council president has threatened to sue me if I contact them again.</p> <p>Also, per my 11/04/24 testimony, the restrooms are still closed at GORC Park and four porta potties are still in use. This issue is about two years old. It's another waste of taxpayer money.</p> <p>Last, the lights for the back parking still do not work. I reported that problem months ago on SeeClickFix.</p> <p>In my experience, most problems can be solved if the parties negotiate in good faith. I'm willing. I'm also still willing to volunteer to be the GORC field light manager. I want to reiterate that my community has no issues with the lights being used for official events.</p> <p>P.S. I see from Matthew H's 10-27-84 online testimony that GORC Park is not the only field in the county with a field light problem. Fascinating.</p>	https://www.aacounty.org/system/files/webform/cc_general_testimony/42753/county-testimony-gorc-lights-2024-11-18.pdf
