Anne Arundel County Department of Inspections and Permits Announce Bioswales Guidance

The Anne Arundel County Department of Inspections and Permits has published a guidance memo on the design, construction, and maintenance of bioswales as they relate to development projects.

Best Management Practices (BMPs), including bioswales are designed, reviewed, and approved based on many factors, including but not limited to, site, and watershed conditions, terrain, stormwater treatment suitability, and physical feasibility. The guidance memo is not intended to cover each and every design scenario or site condition.

The [guidance memo](#) provides more details.
