Re:2024-0157-V (Ad 3, CD 5)
Karen and Kevin Fox

I support approval of the request by the Foxes to allow for decking over the steep slopes in the buffer. We live in this neighborhood in order to enjoy the Severn River beauty, with a deck being logical to the homes here.

Our neighborhood is in application to build a living shoreline to reduce erosion and to enhance aquatic life. I believe that these improvements will far out balance any minor erosion created by the Fox's carefully engineered project.
